Our Mission

To empower organizations with a comprehensive, intelligent HR management system that simplifies workforce operations, enhances employee engagement, and drives strategic growth. We aim to automate HR processes, ensure compliance, and data-driven insights that help HR teams focus on people, not paperwork.

Our Vision

To be the leading digital HR platform that transforms human resource management through innovation, automation, and user-centric design. Our vision is to build a future-ready HR ecosystem that adapts to evolving workforce needs, fosters a culture of transparency, and supports organizational excellence.

ALL MODULES

Employee Self-Service (ESS)

Empower employees with secure access to personal data, notifications, and self-service HR tools.

Recruitment & Onboarding

Streamline hiring with job postings, interviews, and digital onboarding for faster, smarter recruitment.

Geofencing Attendance System

Supports advanced attendance tracking using Geo-Tagging, Geo-Fencing, and Face Scanning for accurate, secure, and real-time verification.

Leave & Payroll Management

Automate leave and payroll processes with integrated compliance, tax planning, and real-time reporting.

Performance & Learning Systems

Align goals and monitor employee growth through advanced reviews, skill matrices, and analytics dashboards.

Separation & Mobile Access

Simplify exit processes and enable full HR functionality on Android and iOS mobile apps.

The Pillars Of The Suite

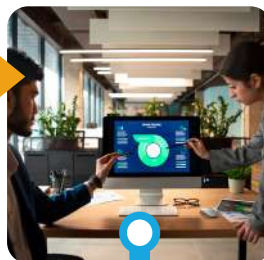

Employee Engagement

Empower teams with feedback, recognition, and development tools.

Smart HR Automation

Digitize core HR tasks—payroll, attendance, and employee data.

Insights & Compliance

Make smart decisions with analytics and stay compliant.

Talent Management

Streamline hiring, onboarding, learning, and growth.

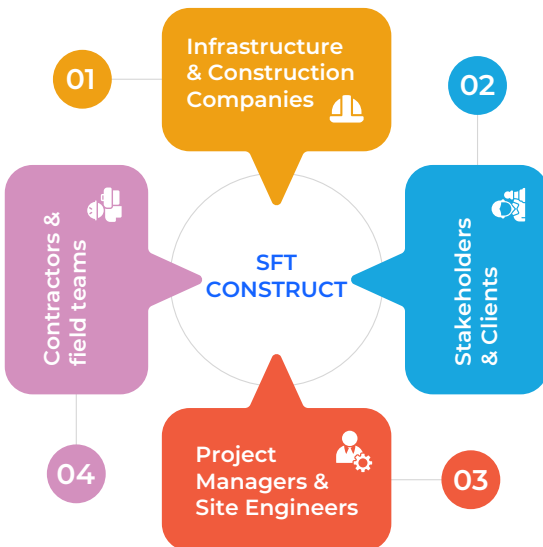

SFT CONSTRUCT

INFRASTRUCTURE PROJECT MANAGEMENT SYSTEM

SFT Construct is a comprehensive, integrated construction management software designed to streamline and digitize every phase of project execution—from tendering and planning to procurement, asset management, and finance.

Built for modern infrastructure and engineering projects, SFT Construct empowers teams with real-time insights, intelligent automation, and collaborative tools to drive efficiency, transparency, and control across operations.

Designed For Sectors

Our Vision

To revolutionize the construction industry by delivering intelligent, integrated, and scalable ecosystem that empower teams to build faster, smarter, and more sustainably.

Our Mission

To empower construction teams with smart, efficient, and transparent project management through innovative digital solutions.

Key Benefits

- ✓ End-to-end integration
- ✓ Real-time project tracking
- ✓ Smart asset management
- ✓ e-Tendering process
- ✓ Mobile-ready platform
- ✓ AI Powered Budgeting
- ✓ Transparent procurement process
- ✓ Sub-Contractor management
